

## 12 MONTH PROFESSIONAL TRAINING

For applicants who want to become full-time traders with us please fill in the application <https://www.lepusproprietarytrading.com.au/traders>

You will get direct contact with a professional trader who will dissect your trading and behavioural inaccuracies. We will support you through behavioural and technical training, whilst keeping you accountable.

You will be taught the trading strategies that we use at our firm that have been consistently making us money for the last 15 years. You will be trained to follow Richard's strategies perfectly.

### **FULL ACCESS TO ALL RESOURCES:**

You will have unlimited access to the course and support videos, which include live seminars

- Foundation Workshop
- Advanced Strategies Seminar Level 1 (March)
- Advanced Strategies Seminar Level 2 (June)
- Advanced Strategies Seminar Level 3 (October)

### **EA INDICATOR:**

We've developed a piece of code that will send you the entry triggers for our momentum strategy directly to your mobile via SMS so that you can never miss our trading opportunities.

### **ALLOCATION OF A\$50,000 AT THE END OF THE 12 MONTHS\***

We make a commitment to you to get you to a professional level within 12 months and reward successful trainees with an allocation.

\*During the last 3-months of training, applicants will be examined for their adherence to Richard's strategies and trading acumen. Please note: There is no guarantee of allocation. Only successful applicants will be given a minimum allocation of \$50,000 to trade for the firm, subject to preference. Profits on this account will be split between yourself and Jackson Capital subject to the terms of the agreement between trader and Jackson Capital.

The Fundamentals (I'll take you through the very basics of Forex trading so traders of any level can get acquainted with what we do) — Module 1-2

Technical and Fundamental Analysis (This will take traders through what I know is important to know as a technical trader, as well as how to take advantage of news releases and make serious profits) – Module 5-6B

Trader Psychology and Behaviour (One of the most important pieces of information is covered here. I will teach you how to manage your behaviour and trade like a professional, not like a gambler) — Module 10

The Jackson Capital News Release Strategy (This strategy has a 100% win rate... This is used by all my traders and hasn't failed since 2014.)— Module 9

My Secret 50% Convergence Rule (My most important amalgamation of rules and the pinnacle of the trading system used at both my companies! This is the golden egg.) – Module 8

The Lepus Cover Strategy (An effective yet simple strategy to help you reduce your risk and improve the risk/reward ratio, which is something I heavily consider when hiring a new trader to work for me.) - Module 9

### **One-on-one coaching direct with Richard Jackson**

In order to break this mould effectively, 1-to-1 personal contact and coaching with an experienced trader is paramount. No different to the concept of seeing a doctor when you're unwell, or a physiotherapist when your back is sore. Seeing a professional is the only way to learn and improve your trading.

## FUNDING CHALLENGE

For applicants who want to become full-time traders with us please fill in the application <https://www.lepusproprietarytrading.com.au/funding-challenge>

### PROVE YOUR SKILL TO BECOME A TRADER AT LEPUS PROPRIETARY TRADING

Why Probation?

If you are not yet experienced it is recommended you talk to us first, you may need training.

Probation is for traders to prove their skill on a live account where we want to assess your skill level over a period of 3 months. In order to begin your probation period, we will require you to open a live account with MEX Exchange or Fusion Markets. We want to see how you behave and trade with your real money before we give you ours.

Trading on Probation with your own money separates people who are serious about becoming potential traders with us from those who are not. This also ensures you have already been trading a strategy with proper risk management skills along with consistency. Trading a Live Account is also reflective of what you'll experience as a real trader - with higher spreads than a Demo and the potential to get 'slipped' on your orders.

### ADHERING TO SOME BROAD RULES.

For all traders on probation and learning through our mentoring, I would like to mention that we are not seeking cowboys we seek professional traders. This is why we do not allow Grid or Martingale strategies. We also have a set of broad rules so to restrict instruments and exposure. This allows us to assess your trading ability and not your gambling ability.

It is important to us that you have the ability to interpret and follow rules. Unless previously discussed with us, please stick to the restrictions to have managed exposure and liquid instruments with low spreads.

Trading restrictions:

- Instruments = currency (No Exotics\*), indices, commodities. (No Crypto)
- Stop losses must be used with 1% fixed risk.
- Max Trades = 3-4, open at any one time
- Style Definition = No Scalping i.e. tp >= 20 pip, no grid, no martingale.

\* Below is a list of exotic currencies we do not trade due to their large spread and concealed fundamentals. Please avoid trading any to these currencies.

BGN, NOK, CZK, PLN, DKK, RON, HKD, RUB, HUF, SEK, ILS, TRY, MXN, ZAR

**What do we look for in a trader? - We will be watching for the following...**

- Consistency
- Good risk management
- Low variance in equity curve
- Low open equity draw down

“I experimented for years trading Forex with poor results from my efforts. My ultimate goal was to have a career in trading the financial markets and I knew that the fact was that I required to learn from an absolute professional with years of experience. This was initially difficult to find. However I discovered Jackson Capital and met with Richard Jackson. The integrity of Richard and his team was a standout. Richard’s wealth of knowledge really shines in his teachings and it’s a great opportunity to learn from all his experiences. I would highly recommend his course to anyone wanting to learn how to trade FX.”

Daryl Sparks Trader. Australia.

“I spent 4 years with going through almost every mistake I could possibly make and in my case behavioural problems have been my primary obstacle to finally reach my goal. I have spent all my spare time on trading and been consumed with everything to do with trading. Everything you can imagine; on the web and podcast while working my job. Still something has prevented me for reaching my goal, then I met Richard! I didn’t realise it, but I needed a mentor, someone I could be responsible to, who actually cares about my progress as a trader, and has the skill, knowledge and experience. I think it’s a rare thing. If I could start all over with what I know today, I would have started with Richard and stuck to his advice.”

Martin Christensen, 56, Denmark

“Richard is the Forex king! He is an insanely smart guy, super sharp and most importantly of all an actual trader. He isn’t selling the dream”

Phil Horner Former CEO Pepperstone, CEO Fusion Markets

---

“Richard Jackson is a disciplined and hardworking trader with years of experience. He is a patient mentor who is eager to share his knowledge with aspiring traders. Instead of creating the next Richards, he tries not to influence his juniors’ trading style and let me and other traders to develop our own mechanism. He isn’t shy to call out on my bullshit, but when he does, he is gentle and forgiving. It’s an honour to have Richard as my mentor.”

Frea A.

“After my years of frustration and losing money with forex trading, Richard took me under his wing and turned my trading around in a month. It’s a great confidence boost to now expect my trades to be winners rather than losers and as a result, my trading account balance is steadily increasing.

Richard has always been keen to share his knowledge and experience with me and his steady guidance has put the fun back into forex. I’ve also recently achieved my goal of becoming a professional trader and have been allocated capital to trade with Lepus Proprietary Trading.”

“Richard is a genius when it comes to trading and teaching students to get the same results, this course is an absolute must!”

Tyson Calvo - Executive Director, MEX Exchange
